Scheuten Solar signs contract for 4 projects with a total output of 3,4 MWp PV-modules on tracker systems located in the region of Umbria, Italy

Scheuten Solar and Solar Umbria s.r.l. signed an EPC (Engineering, Procurement & Construction) contract for the supply and installation of approximately 15.000 PV modules on single axis PV-tracking systems for four different sites in Gualdo Tadino, Umbria, Italy. In addition, a full scope O&M contract was signed.

The parties involved in the development and realization of these projects are Neu Solar S.A. as investor and main shareholder, and EGBM s.r.l. as shareholder and main subcontractor. As main contractor Scheuten Solar is responsible for the development and turnkey realization of the installation of the solar modules on 747 single axis tracking systems, each having an output of 4,5 kWp. The completion of the installations is planned before the end of 2010.

Scheuten Solar develops and realizes solar projects worldwide. "With these new projects we not only create an additional footprint in the Italian market but we also show our capability to develop and realize large PV projects from start to end. Furthermore, working together with these well renowned partners is a boost for further activities in Italy", states Ad Verbaas, Director Project Development, Scheuten Solar.

- END -

Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo, The Netherlands. Scheuten employs over 2000 staff and achieved a turnover of around 400 million euro in 2009.

Scheuten Solar is a global player in designing, manufacturing, distributing and applying photovoltaic solar modules. Since Scheuten Solar was set up in 2000 it has evolved into a fully-grown organization boasting specialists in the fields of solar technology, manufacturing, project development and project realization.
